"Uriel"

Dimension: 70cm x 50cm

Es una pintura realizada con pastel-graso, pigmentos y oleo sobre tela de lino.

Me inspiré de una serie de pinturas de Arcangeles del sigloXVII ; cuya representacion iconográfica son los intermediarios de lo celeste y de lo terrenal. Son seres andrógenos cuya belleza de los rostros y vestimenta me impacto'. Esta Obra representa un rostro vestido por lineas y color, plasmados de manera informal, imponiendo la imaginación al sentido común. Hay una mezcla de lo figurativo y abstracción cromática, realizada con cierta accion y expresión de libertad. Con esta obra intento comunicarme con el espectador, que se encuentra con el reto de entender este paralelismo en su mente de lo figurativo y abstracto. Es una creacion artística desde lo mas profundo de mi mente y quisé expresar libremente la belleza y comunicarla.

la forêt au printemps

Dimension: 80cm x 60cm

Es una pintura realizada con pastel-graso, pigmentos y óleo sobre tela. de lino.

Es un bosque en Bélgica al inicio de la primavera, cuando cuando empiezan a brotar las flores silvestres, formando un tapiz de "jacintos salvajes" y diversas flores de colores variados de gran belleza que contrastan con los troncos oscuros y la luz de los retoños verdes que empiezan a nacer.

Hidden Summer

Dimension: 60cm x 50cm

The desire to create an earthen, organic testimony to human nature inspired the creation of Hidden Summer. This work contains small flashes of orange, yellow, and gold, representing warmth, happiness, and wisdom respectively. The brown streaks are all unique and are found in different tones and shapes, representing humanity and our common home: the earth. While different, we are all linked, affected in varying degrees by the same events happening around us. Today, mankind is living a critical moment in its history. Nevertheless, it is good to remember that in our wintertimes, there is always a summer inside.

Gena Rowlands and I

Dimension: 33cm x 24cm

Imagining for a very short moment to see Gena Rowlands -one of my favorite actresses- present in front of me.

The light of the studio carving her features from the infinite space in a complex game between transparencies, reality and imagination.

This watercolour was painted on Japanese Hakuho paper that gives a very satisfactory tridimensional aspect.
